

School Community Council - January 3, 2018

Approval of previous meeting's minutes -

- Review of Vaping discussion

Ideas for this year's trustland money

- 3 interns funding
- 3 chromebook labs
- 1 to 1 computer ratio
- Current computer labs and rewiring
- Americorps - moving forward

Math teacher hired here for next semester and next year

- Rachel Scott
- Will co-teach and work on a variety of curriculum materials

Interns - will get a list at the end of the month - will work to get 3 for next year

- want to use it to lower class sizes

What about the 3 this year?

- Science teacher will go wherever they want
- History and PE interns know that they need to apply
- We don't quite know FTE's until March
- Have no way of keeping the English Intern

Note - First year teacher salaries have increased - to try to compete with other districts

Chromebook labs

- Chromebooks are starting reach the end of their life
- We want to begin conversations of beginning one to one
- Students would register their Chromebooks
  - Self Insured against loss
  - Some organization with charging
- Parents already paying a textbook fee - would make it happen without increasing fees
- Don't worry about updates - as all they do is connect to the internet
- Discussion of Google Tools and Canvas

Computer Labs Rewire -

- Will rewire this building over the summer
- Wiring rooms cost about 16000 dollars

Americorps -

- Currently have someone that is tracking
- Americorps pay half their salary

- Problem - takes a specific person that it fits with....
- Could be more successful hiring a technician
- Could use trustlands to help track the toughest kids
- Americorps is a government agency that assists people with their schooling and a living allowance

#### Other ideas?

- Professional Development
  - If a teacher wants to go to a conference, we have a way to get them there
  - Summer planning

#### Are we needing to pick and choose?

- No - we should be able to get done with most of these things
- Should have 120 thousand for next year

#### Capital Improvement Funds

- Basketball Hoops
  - Hoops aren't regulation size - 3 of the 4 hoops are too low and we can't raise them
- Remove carpet from benches
  - Hard to clean - Would rather have something we can clean better
- Make a door from Waters room to science storage
  - All other teachers have access except Mr. Waters
  - Quick, easy project
- Discussion of Bus lane
  - Cost is excessive
- Outside bleachers?
  - Do have the hill next to the track

#### Still projects that still need fixing

- we do the best we can with what we have

#### Nebo app

- can see notifications and emails
- Can see kids assignments
- Really useful

Next meeting - Feb. 7th
