

Save the date for our

STEM NIGHT

*"Science, Technology,
Engineering, and
Mathematics opens doors"*

When? **Tuesday, October 25th**

Starts at **3:00 pm**

Spanish Fork Junior High Gym

Never made a Mousetrap car before?

No worries! Let's start building together. After school on Tuesday in September and October, meet up in Mr. Rawlings classroom for a chance to build with a buddy and test out your design.

**Free t-shirts raffled at 3:10, 3:30,
3:50, and 4:10**

Chemistry Magic Show

- Huge thanks to UVU for bringing us a chemistry magic show from 4:30-5:30
- Have you ever seen a clockwise reaction before? What about lots and lots and lots of foam seemingly from nowhere? Wondered, "What chemicals make fireworks different colors?" Join us for a presentation that will chill, thrill, and definitely go boom.

What Else Can You Look Forward To? Much, Much More...

1. **The ALC (Advanced Learning Center) will join us** with information about the amazing high school course opportunities available. Rumor has it that high school students will be showing off some of their projects.

2. **BYU Mathematics Education department** will be bringing several interactive tables run by college students. Feel free to ask questions and learn about famous puzzles.

3. **Hear from our very own agriculture students** about plant gene editing and scientific careers in agriculture.
4. **Participate in our MOUSETRAP car competition.** SFJH has 30 free kits to get interested build teams started. See Ms. Whiteside and get started building and testing your design right away. Students can compete as individuals or in teams of 2 or 3 students. **Free kits for the first 30 teams.**
